### **Idologic MailFoundry Anti-Spam Service**

MessageIQ™ via MailFoundry is a powerful tool for combatting email spam and viruses. Instantly remove 99% of spam and 100% of viruses from your inbox, while virtually ensuring the safe arrival of your most important messages.

This technology is among the premier anti-spam solutions in the industry, as it operates with the philosophy to protect your email instead of simply “killing” anything that appears to be spam. MessageIQ™ is actually based on real people monitoring global email activity and cataloguing spam by hand. This makes the MailFoundry service particularly effective against image spam and other messages that make it by other traditional email filters. Suffer from very few, if any, false positives.

### **Idologic MailFoundry Features**

- MailFoundry services are centrally monitored and managed by the experienced team at Idologic Networks. In fact, the hardware MailFoundry operates on is 100% dedicated to the task of processing spam. Take a load off of your server, literally.
- Although you will receive a login where you can manage and monitor your MailFoundry service, the need for whitelists and heavily-involved management is nonexistent. MailFoundry is designed to be reliable and accurate. There is only a 1 in 1 million chance of a genuine email not making it to your inbox because of MailFoundry.
- Experience a clean and safe email inbox with MailFoundry removing 99% of all spam and 100% of all email viruses.
- Each day you will receive a digest where you can monitor blocked email, release any blocked email, and report any false positives that you may encounter.
- MailFoundry operates via real human operators who centrally and intelligently monitor the world's email 24 hours a day, 7 days a week, and 365 days of the year. Filter updates are literally made every five minutes!

### **Idologic MailFoundry Service Costs**

This enterprise level of spam protection is available at a very affordable rate! It only costs **\$1.00/month to enable MailFoundry for 10 email accounts** (per domain). Employ MessageIQ™ today and be logically connected to a safe and reliable email inbox! Contact the Idologic Helpdesk to get started!
